

# Answer 1:

## Conditional Statement

Spot the errors in the scripts below.

```
<script>

  var number=20;

  if (number>10)
  {
  document.write("You can book your tickets.");
  }

</script>
```

```
<script>

var num1=12;

var num2=2;

var max=36;

if ((num1*num2)<max)

{
document.write("num1 x num2 = " + + (num1*num2) + "<br>");

document.write("The max we can book is:" + + max);
}

</script>
```
