# Exercise 3: Date Object

Spot the errors in the document below.

```
<script>

var d=new Date;

var m=d.getMonth();

var months=Array("January",  "February",  "", "April", "May",
" June",  "July" , "August", "September", "October",
"November", "December";

if (m < 11)

{
alert("In "+ month [m] + " I am very busy");
}
else
{
alert("Maybe next month
}

</script>
```
