

Answer 1: Objects

```
<!DOCTYPE html>

<head >

<script>

function Television(size,price)
{
this.size=size;
this.price=price;
this.sales=sales;
}

function sales(){
return "Welcome to our sales"}

var myTelevision=new Television(24,325);

document.write("Size: " + myTelevision.size + "<br><br>")
document.write("Price:£" + myTelevision.price + "<br><br>")
document.write("Method:" + myTelevision.sales() + "<br><br>")

</script>

</head>

<body></body>

<html>
```
